

Orbital cleaner / Retractor

- fully automatic cleaning with 360° spray pattern
- Can be retrofitted on all containers
- ATEX version possible

Orbital cleaner / Retractor

FUNCTION:

- The spray head is moved hydraulically into the container
- The cleaning medium is supplied via the piston

MATERIALS:

- Version in stainless steel
- Special materials such as titanium, Hastelloy, plastic etc. are possible

AREAS OF APPLICATION:

- can be used for work in potentially explosive areas
- Vacuum-proof version
- Working pressures up to 250 bar
- Cleaning radii up to more than 2.5m
- Temperatures up to 150°C
- Container openings from 35 mm
- Stroke widths between 50 and 1000mm
- Flow rates from 8 to over 500 l/min (30m³/h)

MOUNTING OPTIONS:

- e.g. flange, clamp or milk pipe screw connection

DRIVES:

- Air motor or electric motor in all common motor voltages and speeds,
- also in ATEX version

APPLICATION AREAS:

- Cleaning of large containers of all kinds, storage tanks, preparation containers, agitators and boiling pans
- Suitable for using chemicals, acids and solvents
